

LW430A LED Light

Application

Designed for wind turbine (tower, nacelle) inside lighting, and additional lighting for hazards environment (Waterproof, corrosion resistant, shockproof).

Main Functions & Features

- Soft light beam.
PC grain housing makes the light beam softly, to protect eyes.
- External long life, energy saving and environmental friendly.
The life of LED can reach more than 50,000hrs, and the light can save 50% energy than common bulb, maintenance free.
- Compact structure and size, light weight, switchable mounting hole, easy for mounting on site.

Specification

Description	Parameter
Voltage	AC100V ~ 240V
Frequency	50Hz ~ 60Hz
Power consumption	10W
LED lifetime	≥50,000 hrs
Color temperature	5500K ~ 6000K
Color rendering index	Ra>70
LED luminance	100lm/W
Lighting angle	>170°
Ambient temperature	-40°C ~ +50°C
Storage temperature	-40°C ~ +70°C
Humidity	10% - 95% (no condensing)
IP protection	IP65
Material	Housing: PC; Base: Aluminum strips
Weight	1.0KG
